

SEA SERIES

SEA TO SUMMIT

SEA SERENITY ENDLESS POSSIBILITIES

SUMMIT PRECISION WHERE EXCELLENCE MEETS MACHINERY

SEA SERIES

Navigating Diversity, Satisfying Every Need.

Just as the sea holds boundless resources and endless possibilities,
Our sea series fuel dispensers offer a variety of types,
Catering to clients worldwide with satisfaction as vast as the ocean.

JAPAN STANDARD JAPAN QUALITY

JAPAN STANDARD JAPAN QUALITY

SEA SERIES

Simply Reliable, Globally Popular.

Crafted with precision using japan-standard components, this dispenser embodies simplicity with unmatched reliability. Tailored to meet diverse client needs, it strikes the perfect balance between excellent performance and economic efficiency.

Its compact, slim design effortlessly fits into various pump station spaces, ensuring reliability and convenience worldwide.

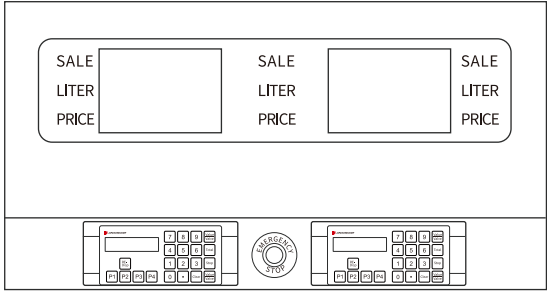

COMPACT DESIGN RELIABLE PARTNERSHIP

Unleashing Dependability in Every Dimension

Keypad Operating Area

Experience Ease in Every Touch

The Sea Series Keypad Operating Area, thoughtfully designed with an ergonomic angle, ensures a user-friendly interface, making machine operation effortlessly intuitive for your clients.

Diversified functions

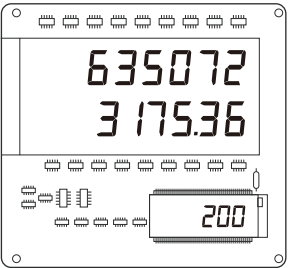

Empower Your Choice

Tailored Functions for Your Needs.
With options like the JEJ IC card system, printer, and more, our Sea Series puts control in your hands.
Enhance site security, reduce drive-offs, and boost profits by customizing your retailing options with precision.

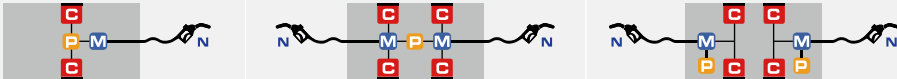

Calculator

The upgraded 8-digit readout with long-lasting, high-visibility bright LED backlight, can tackle with any currency in the world. It makes you and your customers getting the calculation effortlessly.

Main Specification

		Suction Pump Type	Submersible Turbine Pump (STP)Type
Flow Rate		Normal:50L/min High:70L/min Ultra-high:90L/min ※Delivery speed is fluctuate by installed components	※Depends on the on-site STP capacity
Pump		Internal silent gear pump with air separator Suction strainer,Flexible pipe By-pass valve and Suction check value	
Flexible Pipe		Flange type,1-1/2"threaded	
Maunal Drive Handle		Provided for maunal operation during power failure	
Motor		Three-phase 380V 750W (Optional)Single-phase 220-240V 750W	
Meter		4-piston positive displacement flowmeter with electronic adjuster	
Accuracy		±0.3%	
Counter	Type	LCD	
	Character Color	Black charactors on a blue field with bright LED back light	
		(Optional)White/Yellow/Orange back light	
	Display	Sale: 8 digits[0.01~999,999.99]	
		Liter: 8 digits[0.01~999,999.99]	
		Unit Price: 5 digits[0.01~999.99]	
	Machinery Totalizer	7 digits	
	Electronic Totalizer	(Optional) 8 digits	
Other Funtions	Battery back-up		
	(Optional) Self-diagnosis		
	(Optional) Over voltage protector		
Reset Device		Automatic reset	
Nozzle		Automatic nozzle,Spout outside diameter 21mm,25mm (Optional)Red/Yellow/Green/Black/Blue color nozzle	
Hose		Black color hose,Oil resistance type,Inside diameter 16mm (Optional)Red/Yellow/Green color hose	
Safty Breakaway Coupling		(Optional)	
Wiring		(Optional)Cabtyre cable	
Emergency Stop Switch		Provided	
POS Interface		(Optional)	
Line Fuel Filter		(Optional)	
Anti Static Touch Pad		(Optional)	
Sight Glass		(Optional)	
Receipt Printer		(Optional)	
AD Display		(Optional)	
LED Message Board		(Optional)	
Ambient Temperature		-40 to+ 60℃	
Noise		≤80dB (A)	
Inlet Vacuum		≥0.06MPa	

Powering Progress

Unveiling the JAPAN ENERJUMP Fuel Dispenser Range.

Sea Series

JEJ’ s simple type fuel dispenser with one or two hoses, single-product system. Allows you to dispense one grade of fuel up to high speeds.
